

THE NORTHEAST NATURAL HISTORY CONFERENCE

2026

2026 conference booklet cover photographs credits:

Michael Amato	R. Mike Gramly	Isabella Probert
John Anderson	Robyn Graygor	Julianna Rakowski
Benjamin Applegate	Anaya Harry	Richard Ring
Annie Arnold	Kristen Haynes	Jessica Rubin
Valerie Bang-Jensen	Abigail Hines	Saranna Shevalier
Arden Blumenthal	Dwight Holloday	Leslie Spencer
Rachael Bonoan	Sydney Kolz	Trevien Stranger
Charlotte Brennan	Adam Kozlowski	Cy Stravos
Eamon Caffrey	Claire Mahaffy	Mickala Stratton
Steven Campbell	Jaime McGuigan	Tigran Tadevosyan
Madelyn Chartier	Rowan Mentley-Peters	Jack Tessier
Laura Costello	Brianna Monast	Jordan Tourville
Devon Cummings	Matthew Naczi	Rick Van de Poll
John Davis	Donald Padgett	Annie Vincent
Phillip deMaynadier	Scudder Parker	Rachael Wolf
Lauren Goodrich	Peter Paton	Kerry Woods
Gus Goodwin	Anand Persad	

We are grateful to all those who provided images for use on the conference booklet cover. The response to the request was so great that we received way more than we could fit in. We thank all those who offered photographs, including each of the above individuals whose pictures appear on the cover, for allowing use of images related to the natural history studies being presented at the conference. The photographers retain the copyright for their images, and any unauthorized use is prohibited.

NENHC 2026

Promoting the study and stewardship of the natural environment in the northeastern US and eastern Canada

Program and Participants List

April 17–19, 2026

Burlington, VT

Eagle Hill Institute
www.eaglehill.us

Welcome to the 2026 Northeast Natural History Conference!

NENHC 2026 Steering Committee

Keith Goldfarb, Eagle Hill Institute
Joerg-Henner Lotze, Eagle Hill Institute
Chase Uy, Eagle Hill Institute

NENHC 2026 Poster Judging Committee

Peter Palmiotto, Antioch College

NENHC 2026 Poster Judges

Mike Akresh	Julia Joos
Sarah Berlinger	Jacob Keller
Rachael Bonoan	Elise Lauterbur
Hilary Callahan	Lili Lei
Ann Evankow	Christian Liriano
Richard Feldman	Samuel Mangiaracina
Melanie Giangreco	Declan McCabe
Alan Giese	David Miller
Alexander Gouvin-Moffat	Nicholas Paiva
David Gregg	Peter Palmiotto
Molly Jacobson	Anand Persad
Lea Johnson	Erik Sechler

NENHC 2026 Program Committee

Norman Dudziak, RINHS
Keith Goldfarb, Eagle Hill Institute
James Lendemer, NYS Museum
Joerg-Henner Lotze, Eagle Hill Institute
Brett Huggett, Bates College
Fred Rogers, Franklin Pierce University
Bailey Tausen, Eagle Hill Institute
Chase Uy, Eagle Hill Institute

Scott Smyers
Alexandria Soldo
Laura Spence
Joseph Staples
Andrew Swafford
Nava Tabak
Andrea Tirrell
Elizabeth Whitmore-Stolar
Joseph Wilson
Velinda Worix

NENHC 2026 Session and Event Organizers, Leaders, and Moderators

Mike Akresh	Sonia DeYoung	Mark Lesser	Matthias Sirch
John Anderson	Sequoia Dixon	Christian Liriano	Leslie Spencer
Naya Banerjee	Eric Doucette	Terryane Maenza-Gmelch	Larry Spencer
Brian Bastarache	Brett Engstrom	Everett Marshall	Patrick Sweeney
Cahterine Bevier	Kelly Finan	Sophie Mazowita	Jack Tessier
Tammis Coffin	Caitlin Fisher-Reid	Declan McCabe	Andriea Tirrell
Paul Constantino	Josh Halman	Kent McFarland	Kevin Tolan
Jqy Cordeiro	Spencer Hardy	Sarah O'Malley	Rick Van de Poll
Alicia Daniel	Jacob Holzberg-Pill	Lindsey Pett	Beth Whitmore-
John Davis	Peter Hope	Bryan Pfeiffer	Stolar
Emily DeAlto	Jeremy Howland	Laura Reynolds	Mya Wiles
Phillip deMaynier	Jerry Jenkins	Fred Rogers	Ashley Zimmerman
William Demers	James Lendemer	Jess Rubin	

NENHC 2026 has been made possible in part by the generous support from the following

Conference Sponsors and Partners

Eagle Hill Institute

Northeastern Naturalist

Torrey Botanical

Society

Exhibitors and Participating Organizations

Antioch University

Appalachian Mountain Club

College at Saint Michaels

Cornell University Press

Kelly Finan Illustration

The Lake Champlain Program

MsGreenJeanne

Native Plant Trust

New England Botanical Society

North Branch Nature Center

Northeast Natural History Supply

Northern Forest Atlas Project

Northern Woodland

RI Natural History Survey

Rowing House

SUNY Plattsburgh

Swallow Conservation

University of Saint Joseph

UVM Field Naturalist Program

Vermont Atlas of Life

VT Entomological Society

Vermont Institute of Natural
Science

VT Mycological Society

VT Fish & Wildlife Department

Wildlife Tracking and Certification

ATTENTION NATURAL HISTORY ENTHUSIASTS: WE ARE LOOKING FOR PROGRAM COMMITTEE COMMITTEE MEMBERS FOR 2026

We welcome your involvement in making next year's Northeast Natural History Conference a truly amazing event. If you would be interested in helping solicit interesting sessions, workshops, field trips, and other special events for the 2026 NENHC, please let us know ... stop by the registration table while at the conference or email office@eaglehill.us.

Note: The conference venue is a smoke-free facility. Smoking is prohibited anywhere on the premises.

FRIDAY	Friday APRIL 17, 2026
ALL DAY	Wide assortment of 10 Field Trips, 8 Workshops, and 2 Concurrent Meetings ... see conference website for listings.

SATURDAY	SATURDAY APRIL 18, 2026
7:00 AM	Conference Registration Open
7:00–8:00	Set up for exhibitors
8:00	Exhibitions Open
7:00–8:00	Set up for Day 1 scientific posters
7:00–7:25	PowerPoint upload, preview/technology check for Day 1 Morning oral presentations - in the room your talk will be given
7:25–7:50	PowerPoint upload, preview/technology check for Day 1 Afternoon oral presentations - in the room your talk will be given
8:00–9:30	CONCURRENT SESSIONS: Morning I - schedule on page 6-7
9:30–10:30	MORNING POSTER SESSION w/ light snacks and beverages - list of Saturday posters on pages 17–19
10:30–12:20	CONCURRENT SESSIONS: Morning II - schedule on pages 7-8
12:20–1:50	LUNCH (included for those who pre-registered for the conference)
1:50–3:20	CONCURRENT SESSIONS: Afternoon I - schedule on page 9-10
3:20–4:20	AFTERNOON POSTER SESSION w/ light snacks and beverages - list of Saturday posters on pages 17-19
4:20–6:30	CONCURRENT SESSIONS: Afternoon II - schedule on pages 10-11
6:00–7:00	OPEN NETWORKING SESSION w/ cash bar and finger foods
6:00–7:00	Take down for Day 1 scientific posters
7:00 PM	PLATED DINNER - ticketed event

SUNDAY	SUNDAY APRIL 19, 2026
7:00 AM	Conference Registration Open
7:00–8:00	Set up for exhibitors
8:00	Exhibitions Open
7:00–8:00	Set up for Day 2 scientific posters
7:00–7:25	PowerPoint upload, preview/technology check for Day 2 Morning oral presentations - in the room your talk will be given
7:25–7:50	PowerPoint upload, preview/technology check for Day 2 Afternoon oral presentations - in the room your talk will be given
8:00–9:10	CONCURRENT SESSIONS: Morning I - schedule on page 12-13
9:10–10:10	MORNING POSTER SESSION w/ light snacks and beverages - list of Sunday posters on pages 19-21
10:10–12:00	CONCURRENT SESSIONS: Morning II - schedule on pages 13-14
12:00–1:30	LUNCH (included for those who pre-registered for the conference)
1:30–2:50	PLENARY SESSION - description on page 15
2:50–3:50	AFTERNOON POSTER SESSION w/ light snacks and beverages - list of Sunday posters on pages 19-21
3:50–6:00	CONCURRENT SESSIONS - Afternoon II - schedule on pages 15-16
5:15–6:15	Take down for Day 2 scientific posters
	Thank you for participating in NENHC 2026. We hope you enjoy the conference

8:00–9:30	Saturday Concurrent Sessions - Morning I					
	Room A	Room B	Room C	Room D	Room E	Room F
	Water Quality Monitoring and Ecological Effects	Seabird Ecology and the Marine Environment I	The Consortium of Northeast Herbaria: Advancing Collaboration & Biodiversity Research I	Behavioral Ecology	Tales of Change Through the Lens of Lichens	Plant Biodiversity and Resilience
Moderator	Laura Reynolds & William Demers	John Anderson	Patrick Sweeney	Cathy Bevier	Jeremy Howland	Lindsey Pett
8:00–8:05	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
8:05–8:25	Jesse Caney Evaluating Baseline Values and Spatial and Temporal Variation of “Forever Chemicals” in the Environment & in Bald Eagles in MA	John Anderson Nest Site Selection in Herring and Great Black-backed Gulls: Is Shore Front Real Estate Important?	Patrick Sweeney CNH: Advancing Collaboration, Digitization, and Biodiversity Research and Conservation for Nearly 20 Years	Laura May-Collado Decoding the Evolutionary History of Toothed Whales’ Tonal Sounds Repertoire: Reflections and Challenges	Caroline Witherspoon Highlighting Herbarium Gaps with Noteworthy Records of <i>Usnea</i>	Anand Persad Biodiversity and Climate Resiliency: The Rise of the Fruiting and Vine Plants and Their Associated Tri- Trophic Insect Interactions
8:25–8:45	Allison Morrow Beneath the Surface: Assessing the Abundance and Spatio-Temporal Distribution of Microplastics in Lake Champlain & its Tributaries	Ezra Rowe Habitat Selection and Colony Attendance of Alcids on Great Duck Island, ME	Edward Gilbert A Community-Driven Framework for Interoperable Biodiversity Data Networks	Cathy Bevier Exploring Complex Acoustic Signaling in Frogs: A Multi-Disciplinary Approach	Jason Hafstad A Rarity Assessment of New Jersey’s Lichens	Mariclaire Rigby Biodiversity Gains in ROW: Importance of Information-Based Programs
8:45–9:05	Annie Vincent Standardized, Network-Scale Water Quality Data from NEON’s In-Situ Aquatic Instruments and Observations	Peter Paton Full Annual Cycle Movements of Great Black-backed Gulls and Drivers of Offshore Foraging Activity	Emily Sessa From Backlogs to Biodiversity Conservation: Unlocking the Power of Herbaria with AI	Alex Byrne Conspecific Attraction to Egg Masses Drives Communal Oviposition in a Vernal Pool Breeding Anuran	Jeremy Howland Evidence for Large-Scale Epiphyte Declines in the NE Necessitate Incorporation into Invasive Species Management and Monitoring	Anaya Harry & Rachel Goad Genetics of Green Alder in Disjunct Populations from Pennsylvania and the Southern Appalachians

	Saturday Concurrent Sessions - Morning I continued					
	Room A	Room B	Room C	Room D	Room E	Room F
	Water Quality Monitoring and Ecological Effects	Seabird Ecology and the Marine Environment I	The Consortium of Northeast Herbaria: Advancing Collaboration & Biodiversity Research I	Behavioral Ecology	Tales of Change Through the Lens of Lichens	Plant Biodiversity and Resilience
9:05–9:25	Q & A	Autumn Pauly All Over the Map: Using GPS Tracking and Stable Isotopes to Study Foraging Ecology of Herring Gulls	Oluwatobi Oso Beyond the Database: Machine Learning for Trait Extraction from Digitized Herbarium Specimens	Jacques Pierre Veilleux Fall Activity Patterns and Potential for Non-Cavernicolous Hibernation by Bats in New Hampshire	Ann Evankow The Urban Lichen Toolbox	Lindsey Pett Assessing Potential Carnivory in <i>Triantha glutinosa</i>
9:25–9:30		Q & A	Q & A	Q & A	Q & A	Q & A

10:30–12:20	Saturday Concurrent Sessions - Morning II					
	Room A	Room B	Room C	Room D	Room E	Room F
	Ecology Education: Innovative Pedagogy I	Marine & Coastal Ecology	The Consortium of Northeast Herbaria: Advancing Collaboration & Biodiversity Research II	SPARCnet Research Showcase I	Community Science	Poetry, Prose, and Process
Moderator	Terryanne Maenza-Gmelch	Sarah O'Malley	Patrick Sweeney	Caitlin Fisher-Reid	Mike Akresh	Tammis Coffin
10:30–10:35	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
10:35–10:55	Brian Swisher Linking Patterns to Processes in Teaching Ecology Using the Lake-in-a-Tube Microcosm System	Hannah Webber Shells in the Spruce: Marine Prey in the Coastal Forests of Acadia National Park	Ryan Schmidt-Knapik The Hidden Heroes of Herbaria: The Collector Practices that Enable Large-scale Floristic Research in the Northeast	Shelby Hager The Potential Roles that Volatile Compounds of Bacteria Play in the Chemical Communication of <i>Plethodon cinereus</i>	Michael Akresh Using iNaturalist and Community Science to Document Invasive Species and Biodiversity	Scudder Parker Poetry and Nature: Another Way to Research

	Saturday Concurrent Sessions - Morning II continued					
	Room A	Room B	Room C	Room D	Room E	Room F
	Ecology Education: Innovative Pedagogy I	Marine & Coastal Ecology	The CNH: Advancing Collaboration & Biodiversity Research II	SPARCnet Research Showcase I	Community Science	Eco Poetry, Prose, and Process
10:55–11:15	Terryanne Maenza-Gmelch Alternative Final Exams for Field Ecology: a Film, a Podcast, a Field Journal	Sarah O'Malley Tidal Impingement and Vegetation Distribution in a Roadside Fringing Salt Marsh System	Olivia Leek Uncovering Trends and Biases in the Northern Appalachian Herbarium Record	Lan Do How Diet and Energetics Drive Fine-scale Demographic Variation in the Eastern Red-backed Salamander	Desiree Narango Scaling Up Plant–Pollinator Interaction Data with iNaturalist Observations	Hayley Kolding Flyways, The Snipe, and other Poems
11:15–11:35	Gustavo Requena Santos An Unsuspected Tool in Science Education: Conversations about Social Justice in Science Increase Sense of Belonging in Sciences	Adam Kozlowski Community Stability and Change in Rocky Intertidal Communities in the Northeast United States	James Lendemer Challenges and Opportunities for Using Herbaria to Study Changes in Northeast Ecosystems	Jaden Kang Comparing Hydration Performance Across a Climatic Gradient of <i>Plethodon cinereus</i> Populations	Adam Kohl & Avalon Owens Observing Nocturnal Flower-Visitation in the Northeastern US Using Standardized Surveys and Community Science	Bryan Pfeiffer Eco Essays: Big Ideas from Little Things in Nature
11:35–11:55	Rebecca Kartzinell Cultivating Connection: Bridging the Sciences and Humanities in Botanical Curricula	William Draxler The Effects of Climate-Induced Shifts in Water Column Temperature on Calanoid Copepod Population Health and Predator Presence at Mount Desert Rock, ME	Kristen Haynes A Model for Creating Inclusive and Enriching Undergraduate Experiences in Herbarium Digitization	Julianna Rakowski Sex-biased Dispersal Patterns in <i>Plethodon cinereus</i>	Richard Couse & Robyn Graygor The Invasive Plant Brigade: Building Community and Capacity for Invasive Plant Management	Tammis Coffin Probing the Here and the Now with Poets in the Field
11:55–12:15	Michael Amato Our Campus Ecosystem: Volunteered Geographic Information as an Educational Tool and Valuable Dataset	Stephen Hale The Short-Lived Champlain Sea	Izzy Hudson Hidden Herbalists-Insight into the Women Behind Brown's Collection	Sophia Cox What Can Citizen Science Data Reveal About Red-Backed Salamander Phenology?	Silas Beers Implementing a Nationwide Mammal Monitoring Project on Martha's Vineyard	Rick Van de Poll Crossing Sacred Land
12:15–12:20	Q & A	Q & A	Q & A	Q & A	Q & A	Q & A

1:50–3:20	Saturday Concurrent Sessions - Afternoon I					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeast Herpetology II	Seabird Ecology and the Marine Environment II	New England Flora	Promising Trends in Ecological Restoration	From the Sugarbush to the Bog: Research & Outreach by UVM Field Naturalists	Paleontology and Paleoecology of Eastern North America
Moderator	Brian Bastarache	John Anderson	Eric Doucette	Jess Rubin	Emily DeAlto	Fred Rogers
1:50–1:55	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
1:55–2:15	Scott Smyers Larval Keys to New England Amphibians	Liam Taylor Egg Neglect and Egg Cold Tolerance in Storm-Petrels	Eric Doucette Assessing Conservation Ranks for all of Maine's Tracheophytes	Yulia Klimento Priming the Pump Together: Building a Shared Toolbox for Ecological Restoration Through Natural History Practice	Naya Banerjee Tracks and Taps: Wildlife Habitat and Presence in the Sugarbush at Proctor Maple Research Center	Jed Day The Paleobiogeography and Extinction of Spinocyrtid Brachiopods in Central and Eastern North America (Western Laurussia) During the Upper Devonian
2:15–2:35	Nora Platt & Victoria Wetzel The Effects of Cohabitation on Growth of Eastern Box Turtle Head-Starts	Jackson van Pelt Record High Occurrence of Leg Damage in Leach's Storm-Petrel on a Maine Island	Eric Karlin Protecting Endangered and Threatened Mosses in Massachusetts	Jess Rubin Investigating Myco-Phytoremediation while Restoring Degraded Riparian Forested Buffers into Multi-Functional Habitats for Socio-Ecological Reconciliation	Matthias Sirch Vermont's Sugaring Operations and Potential Implications for Wildlife	Paul Olsen Keeping Grounded: How Data from Scales and Filaments from Eastern North American Reptile Tracks are Key to the Protofeathered Ancestral State of Dinosaurs and Pterosaurs
2:35–2:55	Tigran Tadevosyan Bias in Measurements of Snakes Restrained by Extension and in a Novel, Portable Confinement Chamber	Kayla Kulzy New Technology Provides Insights into Biparental Chick Provisioning in Storm-Petrels	Richard Ring Status and Ecology of Northern Monkshood in the Catskill Mountains of New York	Emma Smith Management of <i>Aegopodium podagraria</i> (Goutweed) Using Native Plants at the Intervale's Silver Maple-Ostrich Fern Floodplain Forest	Laura Costello Cameras, Crowds, and Citations: Exploring Orchid-Insect Relationships via Fieldwork, iNaturalist, and Literature	Richard Michael Gramly Absolutely Dated Associations of Human Beings and Extinct or Extirpated Mega-Fauna in Northeastern North America: 2014–2026

	Saturday Concurrent Sessions - Afternoon I continued					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeast Herpetology II	Seabird Ecology and the Marine Environment II	New England Flora	Promising Trends in Ecological Restoration	From the Sugarbush to the Bog	Paleontology and Paleoecology of Eastern North America
2:55–3:15	Matthew Kamm A Comparative Study of Spotted Turtle Nest Site Selection and Hatchling Vitality in MA and GA	Emelia Lakebrink Too Many Strings Attached: Microplastic Fiber Ingestion in a Maine Gull Colony	Jerry Jenkins The Plants of North Pownal	Rick Van de Poll Stream Restoration as a Climate-Adaptation Tool	Emily DeAlto Paleoecological Investigation into the Origins of the UVM Natural Areas Program's New Peatland, Joe's Pond	Guy Robinson A 14,000-Year Vegetation and Fire History of Nature Study Woods Swamp, Southern New York
3:15–3:20	Q & A	Q & A	Q & A	Q & A	Q & A	Q & A

4:20–6:30	Saturday Concurrent Sessions - Afternoon II					
	Room A	Room B	Room C	Room D	Room E	Room F
	Ecology Education: Innovative Pedagogy II	Freshwater Mollusks	VT Collections Network: Plumbing 200 Years of Specimens for Modern Science	Ecology & Natural History of Northeastern Forests	Butterfly Ecology and Conservatrion in the Northeast	Campus as a Natural History Laboratory I
Moderator	Terryanne Maenza-Gmelch	Jay Cordeiro	Sonia DeYoung	Christian Liriano	Kent McFarland	Declan McCabe
4:20–4:25	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
4:25–4:45	Caitlin McDonough MacKenzie Reading and Knitting the Forested Landscape	Jay Cordeiro The IUCN Red List Assessment of Global Freshwater Snails: Status and the Assessment Process	Sara Helms Cahan "Containing Not a Few Specimens of Great Value": 200 Years of Natural History Collections at the University of VT	Anna Beach The Distribution, Public Health Potential, and Biocultural Value of Urban Foraging in Syracuse, NY	Steven Campbell Recovery Efforts for Karner Blues Benefits Frosted Elfins	Declan McCabe Redesigning Campus for Biodiversity Education and Research
4:45–5:05	Alan Giese Effective Conservation Education for Diverse Audiences: Storytelling and Filmmaking	Rowan Mentley-Peters Evaluating Genetic Divergence of <i>Elliptio complanata</i> in New York State Watersheds	Finn Flynn Locating Haitian Coleoptera Specimens in University of Vermont's Zadock Thompson Zoological Collection	Samantha Sawyer Landscape Distribution of Necrophagous Flies in a Recreationally Used Urban Forest Block in Boston, MA	Charlotte Brennan Framework for Assessing Expansion Potential in Rare Specialist Butterflies	Peter Palmiotto Antioch's Outdoor Classrooms: Creating Opportunities for Experiential Learning

	Saturday Concurrent Sessions - Afternoon II continued					
	Room A	Room B	Room C	Room D	Room E	Room F
	Ecology Education: Innovative Pedagogy II	Freshwater Mollusks	VT Collections Network: Plumbing 200 Years of Specimens for Modern Science	Ecology & Natural History of Northeastern Forests	Butterfly Ecology and Conservation in the Northeast	Campus as a Natural History Laboratory I
5:05–5:25	Ashley Alred Longitudinal, Relationship-Centered Ecology Education: Tracing Youth Engagement Across Contexts	Melanie Giangreco Vermont's Native and Invasive Freshwater Mollusks and Crustaceans	Alejandra Vouga Aguilera Phenological Shifts in Relation to Temperature Trends in Bennington, VT	Amélie Przedwiecki Fired Up: Quantifying Fire Severity of Prescribed Burns Across Temporal and Spatial Scales	Amber Jones Ecology and Natural History of Vermont's Newest Butterfly Species: The Midsummer Tiger Swallowtail	Samuel Quinn SUNY ESF's Quad Meadow: A Novel Ecosystem for Biodiversity Research and Education
5:25–5:45	Leslie Spencer Pollinator Pledges: Encouraging Farm Visitors to Take Conservation Action	Paul Marangelo Long term (>30 yr) Freshwater Mussel Population Trends in the Missisquoi and Poultney Rivers (VT)	Cy Stavros Herbarium Specimens and Genomics Reveal Ancient Hybridization in Royal Ferns	Shelby Perry Introducing the Wildlands Research and Ecology Network (WREN)	Dana Williams Resurveying the Green Mountain State: Preliminary Findings from the Second Vermont Butterfly Atlas	Richard Feldman Learning Natural History and Ecology on the Landscape of Marist University
5:45–6:05	Sarah O'Malley The Maine Master Naturalist Program as a Model for Building Capacity for Nature Education	Allison Roy Dam Removal from the Perspective of a Freshwater Mussel	Claire Ellerbrook Using Natural History Collections to Investigate Past and Present Carnivore Diet in the Northeast	Shelby Perry & Robert Zaino Where the Wildlands Aren't: Using Ecological Representation to Secure the Full Diversity of Nature in the Northeast	Phillip deMaynadier A Butterfly Atlas of Maine and the Canadian Maritime Provinces	Molly Jacobson Integrating Citizen Science and Specimen Collection in a Multi-year Campus Bee Survey
6:05–6:25	Q & A	Stefanie Farrington Using Side-scan Sonar and Spatial Analysis to Characterize Habitat for Aquatic Species Conservation	Alexis Mychajliw Tracking Ten Thousand Years of Semiaquatic Furbearer Ecology and Harvest in the Northeast	Kerry Woods Old-Growth Mesic Forests Reflect Specific Stand Histories Over Decades to Centuries	Kent McFarland Butterflies in Decline: A Call for Collaborative Conservation in New England	Valerie Bang-Jensen & Mark Lubkowitz The Teaching Gardens: Where Science and Literacy Meet
6:25–6:30		Q & A	Q & A	Q & A	Q & A	Q & A

8:00–9:10	Sunday Concurrent Sessions - Morning I					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeast Herpetology II	Northeastern Botany	The Ringed Boghaunter: Rare and Elusive Dragonfly of the Northeast	Promising Aquatic and Terrestrial Restoration	Community-based Conservation in the UVM Field Naturalist Master's Program	Aquatic and Wetland Insects
Moderator	Brian Bastarache	Jack Tessier	Phillip deMaynadier	Jess Rubin	Emily DeAlto	Rick Van de Poll
8:00–8:05	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
8:05–8:25	Eamon Caffrey Five Decades of Rescuing Cold-Stunned Sea Turtles in Massachusetts	Dorothy Allard The Bryophyte Conservation Alliance: A New Initiative to Conserve the Bryophytes of North America	Mark Ward Stalking the Ringed Boghaunter: Detection Challenges for an Elusive Dragonfly in Maine	Danielle O'Dell Spotted Turtle Habitat Use and Cranberry Bog Restoration: Using Wildlife Data to Inform Wetland Restoration Design on Nantucket Island, MA	Ben Applegate River Conservation Opportunities in Northeastern Vermont: A Scoping Study of Wild and Scenic River Designation	Matt Naczi Diversity, Endemism, and Conservation Concerns of Fen-Associated Beetles in the Northeastern United States
8:25–8:45	Tigran Tadevosyan Demographic Assessment of Snakes in Norfolk County, MA	Peter Kaires Effects of Prescribed Burns on Fruit-Bearing Plant Density	Christiana Teye Environmental DNA Application to the Threatened Ringed Boghaunter (<i>Williamsonia lintneri</i>) in Maine	Gus Goodwin Restoration of American Elm to the Northeast	Greta Aiken A Landscape Inventory and Assessment of Londonderry, VT's, Town Lands	Maria Jankowski Preliminary Analysis of the Spatial Distribution and Species Richness Patterns of Vermont Stoneflies (Insecta, Plecoptera)
8:45–9:05	Julia Joos Investigating High Predation Rates in Wood Turtles With Wildlife Cameras and Realistic Turtle Models	Jack Tessier Over-compensation Following Simulated Partial Herbivory in <i>Dryopteris intermedia</i> (Common Wood Fern)	Mark Ward Emergence Phenology of the Ringed Boghaunter Dragonfly in Maine	Declan McCabe From Neglect to Restoration: Transition to Active Habitat Restoration in the Saint Michael's College Natural Area	Panel Discussion with Staff and Alumni: What Makes the Field Naturalist Program Unique	Scott Grubbs Why Taxonomy and Systematics Matter with Conservation Research: Case Studies on Three Stonefly Species of <i>Leuctra</i>
9:05–9:10	Q & A	Q & A	Q & A	Q & A	Q & A	Q & A

10:10–12:00	Sunday Concurrent Sessions - Morning II					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeastern Grassland and Scrubland Birds	Wild Bees: Surveys, Identification, & Disease	Peatlands of the Boreal Temperate Ecotone	SPARCnet Research Showcase II	Alpine Zone Ecology	Campus as a Natural History Laboratory II
Moderator	Kevin Tolan	Spencer Hardy	Mark Lesser	Caitlin Fisher-Reid	Andrea Tirrell	Paul Constantino
10:10–10:15	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
10:15–10:35	Claire Huff Wintering Strategies and Migratory Connectivity of Eastern Grassland Savannah Sparrow Populations	Toby Shaya Rhode Island Pollinator Atlas: Showcase of Rhode Island Bumblebee Survey and Wild Bee Survey Highlights	Stephen Langdon Fine-Scale Microclimate Monitoring of a Disjunct Population of <i>Petasites frigidus</i> var. <i>palmatus</i> (Asteraceae) in a Large Boreal Peatland Complex in the Adirondacks (NY)	Arianna Berrios Temperature-induced Stress Responses by Color Morph in the Eastern Red-backed Salamander	Braedon Lineman From Curiosity to Climate Sentinel: A Brief History of Alpine Botany in the Northeastern US	Paul Constantino Preliminary Investigation of Flying Squirrels (Genus <i>Glaucomys</i>) in the Natural Area of Saint Michael's College
10:35–10:55	Emma Lake Changes in the Wintering Location of Bobolinks (<i>Dolichonyx oryzivorus</i>) Due to Climate Change	Matt Pelikan Bee Microsurveys on Martha's Vineyard	Michale Glennon Birds and Bogs: Climate Change and Life at the Edge of the Boreal	Shelby Shartz Glow, Baby, Glow: Investigating Biofluorescence in the Eastern Red-backed Salamander (<i>Plethodon cinereus</i>)	Jordon Tourville Northeastern Alpine Plant Phenology: Links Between Temperature, Snow, and Topography	Trevien Stanger Assessing the Wounds, Planting the Cure: A Three-Tiered Framework for Experiential Natural History
10:55–11:15	Kevin Tolan Invasive Plants in Northeastern Grasslands: An Emerging Threat	Molly M. Jacobson Managed Powerline Rights-of-Way as Habitat for Rare Bees in the Northeast	Mark Baran LiDAR-based Delineation of Boreal Peatland Transition Zones	Kristie Semanchik Quantifying Fine-Scale Movement Patterns of <i>Plethodon cinereus</i>	Julia Daly Mountain Ponds, Lake Phenology, and Aquatic Environmental Responses	Aliza Boles Fassler From Misunderstood to Marvelous: Connecting People to Nature Through Insects on a University Campus

	Sunday Concurrent Sessions - Morning II continued					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeastern Grassland and Scrubland Birds	Wild Bees: Surveys, Identification, & Disease	Peatlands of the Boreal Temperate Ecotone	SPARCnet Research Showcase II	Alpine Zone Ecology	Campus as a Natural History Laboratory II
11:15–11:35	Christopher Liazos The Conservation Value of Silvicultural Systems for Breeding and Post-Fledging Forest Birds in Southwestern NH	David Mantack Metallic-Sweat Bees of the Northeast: Practical Approaches to Dialictus Identification	Anne Brucker Arnold Arthropod Community Composition Along an Open-to-Forested Gradient in a Boreal-Temperate Ecotone Within a North American Peatland	Anna Green Examining Eastern Red-backed Salamander Movement Patterns Across Artificial Habitat Arrays	Jason Hill Range Contraction of Northeastern Spruce-Fir Birds Revealed by 15 Years of Monitoring	Kirsten Martin Rewilding the Curriculum
11:35–11:55	Q & A	Samantha Alger Sleeping Beauty: An Examination of the Effects of Hibernation on Diseases of <i>Bombus impatiens</i> (Common Eastern Bumblebee)	Olivia Devito Millimeter by Millimeter: Assessing Fine-scale Growth Trends of Black Spruce in a Southern Boreal Peatland	Audrey Blanchard Evaluating the Performance of Population Abundance Estimators with <i>P. cinereus</i> Count and Spatial Recapture Data	Grace Jia Investigating Genomic and Microbial Diversity in Northeast US Alpine Ecosystems Under a Changing Climate	Caitlin McDonough MacKenzie The Campus Sugarbush as a Natural History Laboratory
11:55–12:00		Q & A	Q & A	Q & A	Q & A	Q & A

Mark Your Calendars and Plan Ahead! The 2027 Northeast Natural History Conference will be in Albany NY, Friday April 16–Sunday April 18.

Let us know if you are interested in joining our Program Committee to help plan next year's event.

We also welcome proposals for field trips, workshops, and oral presentation sessions—contact us with your ideas!

Interested in looking at the abstracts for some of the presentations?

All the oral and poster presentation abstracts are available for participant perusal online: you can access them from the left-hand menu of the home page under "Program" on the conference website.

	Sunday Afternoon I					
1:30–2:50	Plenary Session - Room A Nature's Best Hope					
	with Doug Tallamy, Author, entomologist, ecologist, educator, and conservationist					
	Recent headlines about global insect declines, the impending extinction of one million species worldwide, and three billion fewer birds in North America are a bleak reality check about how ineffective our current landscape designs have been at sustaining the plants and animals that sustain us. Such losses are not an option if we wish to continue our current standard of living on Planet Earth. The good news is that none of this is inevitable. Tallamy will discuss simple steps that each of us can- and must- take to reverse declining biodiversity on our own properties and will explain why we, ourselves, are nature's best hope.					
3:50–6:00	Sunday Concurrent Sessions - Afternoon II					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeast Invasive Species	Plant–Pollinator Interactions	NY Herbaria: Stories of Science, Humanity, and Education	Stories, Explorations, Discoveries, Ideas, Great Places, and Cool Plants and Animals	Conservation Dogs	Campus as a Natural History Laboratory III
Moderator	Beth Whitmore-Stolar	Leslie Spencer	James Lendemer	Jerry Jenkins	Ashley Zimmerman	Declan McCabe
3:50–3:55	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview	Introduction & Overview
3:55–4:15	Ian Mowatt When "Invasive" Becomes Climate-Enabled: Forecasting Avian Range Shifts and Ecological Integration	Christian Liriano How Floral Nutritional Landscapes Shape Bee Foraging in Northeastern North America	Lydia Paradiso The Local Herbarium of the Torrey Botanical Club and the Value of Regional Collections	Jaime McGuigan From Observation to Action: Can Trail Cameras Help Us Make Better Small-Scale Land Decisions?	Kristine Hoffmann Transmitters, Toads, and Turtles: Finding various targets with a Conservation Dog	Benedict Gagliardi III The Edna Lawrence Nature Lab: A Uniquely Inspiring Resource for Art & Design
4:15–4:35	Joseph Staples Invasive Plants as Chemical Filters Shaping Insect Communities	Desiree Narango Does Plant Ecotype Matter For Pollinator Support? Insights from a Common Garden Experiment	Hilary Callahan An Herbarium of Her Own at Barnard College in New York City	Brett Engstrom Willoughby: A Vermont Geobotanical Marvel	Molly Buis Comparing Field-feasible Cooling Methods for Working Dogs at Risk of Heat-related Illness	Brian Collier Art and Ecology at Saint Michael's College

	Sunday Concurrent Sessions - Afternoon II continued					
	Room A	Room B	Room C	Room D	Room E	Room F
	Northeast Invasive Species	Plant–Pollinator Interactions	NY Herbaria: Stories of Science, Humanity, and Education	Stories, Explorations, Discoveries, Ideas, Great Places, and Cool Plants and Animals	Conservation Dogs	Campus as a Natural History Laboratory III
4:35–4:55	Abby Parker The Physiological Effects of <i>Reynoutria japonica</i> (Japanese Knotweed) Root Material in <i>Zophobas morio</i> (Superworm)	Rachael Bonoan Wild Bee Foraging Behavior and Nutritional Ecology in Urban Gardens	Devon Cummings Creating a Local Herbarium	John Davis Split Rock Wildway: For Unusual Plant Communities as well as Wide-Ranging Animals	Scott Egan Canine-assisted Survey Teams for Detecting Eastern Box Turtles in Natural Habitats	Brian Swisher Connecting the Land to the Classroom Lab: Assaying Soil Nutrient Contributions to Algae Blooms
4:55–5:15	Stephen Root Effect of <i>Reynoutria</i> spp. (Knotweeds) on Plant Succession in Riparian Areas	Dorothy Christopher Pollinator Community Composition Varies Seasonally and Within Days in <i>Ipomoea purpurea</i>	Kristen Haynes 35,000 Images Later: Our Experience Mass-digitizing the SUNY Oswego Herbarium	Kerstin Lange From Death Strip to Life Line: Natural History of a Cold War Border	Arden Blumenthal Leveraging Conservation Detection Dog Surveys to inform New England Cottontail Conservation in NYS	Jerry Burgess Engaged Learning in the Urban University Landscape
5:15–5:35	Lori Murphy Allelochemical Effects of Two Native Plants on Invasive Species in New York State	Casey Johnson Planting for Native Bees in Farm Bill Conservation Plantings in Southern New England	Sean Robinson Digitization of the SUNY Oneonta Herbarium and Establishing a SUNY Herbarium Network	Jerry Jenkins Making a Landscape-based Field Manual	Wheeler Fisher Investigating Dogs' Behavioral Response to Wolf Scat as Compared to Scat from Prey Animals	Allison Neal Teaching Parasite Ecology with Trematodes and Snails
5:35–5:55	Elizabeth Whitmore-Stolar Round Goby Management Efforts in the Lake Champlain Watershed	Jacob Keller Ecology of <i>Melitta eickworti</i> Alongside a Transmission Line Right-of-way	James Lendemer The State of New York Herbaria	Q & A	Sequoia Dixson Conservation Detection Dogs as a Tool for Wood Turtle (<i>Glyptemys insculpta</i>) Monitoring in Maine	Q & A
5:55–6:00	Q & A	Q & A	Q & A		Q & A	

SATURDAY POSTER PRESENTATIONS DIRECTORY

No.		Presenters	Title
1	S	Gemma Sophia Bradney Rice	The Presence of Microplastics in the Gastrointestinal Tract of Various Cold-Water Fish Species Surrounding Mount Desert Rock, Maine
2	S	Eun-Jae Norris	Investigating Baltic Isopod (<i>Idotea balthica</i>) Tidepool Microhabitat choice on Mount Desert Rock, ME
3	S	Olivia Macaluso	Evaluating the Effect of Temperature on Historical Landings of <i>Mya arenaria</i>
4	S	Emma Thornton	Reestablishing <i>Mya arenaria</i> Populations with Seeding and Netting in the Great Salt Pond of Block Island, RI
5	S	Jillian Faith Hallman Ballarino	Long-term Population Dynamics of the Asian Shore Crab in Southern New England and Correlations with Resident Species
6		Christopher Bloch	Population Decline of Intertidal Macroinvertebrates at Sandwich, Cape Cod
7	S	Solomon LeFrancois	Body Size of the Invasive Asian Shore Crab as a Function of Population Density in Southern New England
8	S	Mallory Caroline Morrison Klleimola	Inducible Defenses of the Blue Mussel to an Invasive Predator, the Asian Shore Crab, in Southern New England
9	S	Brianna Monast	Effects of Dietary Protein on Growth of Head-started Eastern Box Turtles
10	GS	Elisabeth Vogl	Quantification of Stripe Coverage in Eastern Red-Backed Salamander (<i>Plethodon cinereus</i>)
11	GS	Rachael Wolf	Relatedness and Microhabitat Choice in the Red-Backed Salamander
12	GS	Shawn Geary	The Relationship Between Dermal Glucocorticoids, Surface Activity, and Home Range Size in Red-backed Salamanders
13		Eric Gangloff	Drivers of Movement and Social Behaviors in the Eastern Red-Backed Salamander
14	S	Sean Blackden	Microhabitat Variation and its Impact on Morph Frequency of <i>Plethodon cinereus</i> at a SPARCnet site in Bridgewater, MA
15	S	Harrison Lauren Gabriele Sellmayer	Variation in Ovarian Egg Counts in a Population of <i>Plethodon Cinereus</i> in Southeastern Massachusetts
16	S	Avery Barry	Interpreting Eight Years of Body-Size Data for Eastern Red-Backed Salamanders in Massachusetts
17	S	Liliana Vazquez	Factors Affecting the Prevalence of Symbiotic Green Algae in Amphibian Egg Masses in Vernal Pools
18	S	David Marsh	Botanical Biodiversity in Vernal Ponds

Study Natural History Science with Eagle Hill ...

Natural History Field Station on the beautiful coast of Maine

For over 45 years, offering week-long summer science seminars ...

- Wide array of topics
- Top-rate instructors and helpful staff
- Enthusiastic participants
- Great food
- Comfortable accommodations nestled in a peaceful forest setting
- Well-equipped facilities and a large on-site library
- Located in an area offering an impressive diversity of accessible natural habitats

Summer on the coast of Maine doing field work?

- Interested?
- A research or survey proposal is needed.
- Positions include free off-campus housing, with options for joining seminar participants for meals at no cost.
- Work-study stipends for staff positions are an option.
- Fall and winter house-sitter options available.
- For more info ... Chase Uy at chase@eaglehill.us.

www.eaglehill.us

Natural History Science Journals

Eight titles publishing the latest peer-reviewed research focusing on the habitats, flora, fauna, ecology, bats, and paleoecology of eastern and midwestern North America, Central and South America, and the Caribbean as well as urban areas worldwide.

- an efficient but personal and responsive peer-review process
- a professional staff with years of experience of consistently providing timely publication
- online publication of articles as soon as they are ready for prompt distribution to a global audience
- welcoming special issues based on conference/symposium proceedings or a thematic collection of articles
- accommodating a wide range of supplemental files in association with journal articles
- welcoming the submission of manuscripts based on original fieldwork, significant novel observations, as well as summary review papers that focus on terrestrial, freshwater, and marine organisms and habitats

Direct inquiries about NENA & SENA to keithg@eaglehill.us ... for all other journals: office@eaglehill.us

EAGLE HILL INSTITUTE 2026 SUMMER NATURAL HISTORY SCIENCE SEMINARS

on the Eastern coast of Maine

for field biologists, university students and faculty, and naturalists

For individual seminar descriptions and instructor biographies, please see the seminar calendar at: →

Each summer since 1987, national and regional authorities in the field of natural history sciences come to Eagle Hill Institute to lead advanced, specialty, and introductory weeklong field seminars in their areas of expertise, which are diverse in subject matter and ecological scale. Seminars are primarily geared toward participants who have a reasonable background in the respective subjects or related fields, but those with a keen interest in learning about a new subject are welcome to take advantage of the concentrated body of knowledge and advanced field experience uniquely available at Eagle Hill. Seminar participants include field biologists, university professors, teachers, graduate and undergraduate students, and personnel from museums, botanical gardens, federal, state, and consulting agencies, and numerous environmental organizations.

Each seminar runs from Monday through Friday and consists of a combination of field trips to the numerous pristine habitats on the coast of eastern Maine, laboratory work, lectures, discussions, and a review of the current literature. Most evenings are free for independent studies, presentations in the lecture hall, or discussions by the fireplace. Participants and guests appreciate the personal atmosphere, the dedication of the instructors and staff, the comfortable accommodations, and perhaps above all, the intellectually challenging and aesthetically pleasing setting that provides the opportunity to engage with others likewise dedicated to and curious about the natural history sciences.

Dates	Title	Instructor
May 17–23	Marine Polychaetes: Biology and Ecology	Karl Koehler
May 31–Jun 6	Building Birding Skills: Field Identification & the Natural History of Birds	Derek Lovitch
Jun 7–13	Nature Journaling: Drawing, Data Discovery	Nancy Lowe
Jun 14–20	Liverworts and Liverwort Ecology	Blanka Agüero
Jun 14–20	Sedges: Identification and Ecology	Lisa Standley
Jun 21–27	Native Bees: Diversity, Ecology, and Conservation	Nick Dorian & Max McCarthy
Jun 21–27	Introduction to Mosses: Diversity, Ecology, and Physiology	Theresa Clark
Jun 28–Jul 4	Introduction to Lichens	Ian Medeiros
Jul 5–11	Lichens, Biofilms, and Stone	Judy Jacob & Annie Evankow
Jul 5–11	Tardigrade Biology, Ecology, Field Sampling, and Identification	Emma Perry
Jul 12–18	Wetland Identification, Delineation, and Ecology	Rick Van de Poll & Joseph Homer
Jul 12–18	Adobe Lightroom Classic and Creative Cloud for Naturalists	Erika Mitchell
Jul 19–25	Grass Identification: An In-depth Review	Rick Van de Poll & Dennis Magee
Jul 19–25	Trees and Shrubs of Downeast Maine	Erika Mitchell
Jul 26–Aug 1	Identification Skills for the New Mushroomer: Foraging for Edible and Medicinal Mushrooms	Greg Marley and Michaeline Mulvey
July 26–Aug 1	Ant Biodiversity, Natural History, and Collective Behavior	Jane Waters
Aug 2–8	Aquatic Flowering Plants, with a Review of the Potamogetonaceae	Barre Hellquist & John McPhredran
Aug 2–8	Advanced Bryology: Taxonomy & Microscope Techniques for Moss Identification	Theresa Clark
Aug 9–15	Ferns and Lycophytes: Identification, Biology, and Natural History	Robbin Moran, Alejandra Vasco, & Weston Testo
Aug 9–15	Spider Ecology, Biology, and Identification	Matthias Foellmer
Aug 16–22	Tracks and Sign of Insects and Other Invertebrates	Charley Eiseman
Aug 23–29	Banding Songbirds and Raptors: Livetrapping, In-hand Aging and Sexing, and Data Collection	Adrienne Leppold, David Brinker, Connor O'Hea, & Todd Alleger
Aug 23–29	Mushrooms under the Microscope	David Porter & Michaeline Mulvey
Sep 6–12	Introduction to Ascomycota and Independent Studies	Jason Karakehian
Sep 17–26	Bryophilous Fungi	George Greiff

59 Eagle Hill Road / PO Box 9
Steuben, ME 04680

Discounts are offered to College and University Students: 15% off with general application; 30% off with faculty letter of recommendation. The discount applies to tuition and room costs, but not meal costs. We also offer a limited number of partial and full scholarships. Awards are based on merit, need, and availability. Please see our website for more details.

The premier **natural history science journals** covering all of eastern North America . . .

Focused on natural history research related to all aspects of the biology and ecology of terrestrial, freshwater, and marine organisms and the environments of the eastern United States and eastern Canada.

Accepting research articles, review summaries, and notes as well as special publications.

Utilizing a double-blind review process to provide impartial, constructive, insightful feedback to authors.

Offering a responsive, personal approach to publication that generates consistently high author satisfaction.

Continuing to make our manuscript handling ever more efficient, resulting in shorter turnaround times, and with early online publication of papers as soon as they are ready.

<https://eaglehill.us/sena>

<https://eaglehill.us/nena>

Established, respected journals that offer global visibility:

Part of the BioOne collection, which is extensively subscribed to by institutions throughout the world.

Covered by the JSTOR digital library.

Included in the major journal indexes.

Attention NENHC Presenters:

Special Offer from the *Northeastern Naturalist*

If you submit a manuscript for publication to NENA based on research presented at the 2026 NENHC by December 31, 2026, you will receive a 10% discount (15% for students) on the publication charges. Simply identify your submission as NENHC research in your cover email and you will qualify for the discount.

Interested in creating a broad but focused, collaborative publication to advance a research interest or to disseminate the findings or proceedings of a meeting or conference?

Find out how a **Special Issue** can help achieve your goals!

We work closely with special issue organizers to provide the support, advice, and review process structure and oversight that will help them produce a publication that meets their objectives and fulfills their vision.

Special issues are included in the BioOne and JSTOR collections, journal indexes, and journal subscriptions for NENA and SENA, bringing broad, global exposure.

Biology and Conservation of Emydine Turtles

Northeastern Naturalist, Volume 31, Special Issue 12, 2024–25

Climate Change in the Mountains of Maine and the Northeast

Northeastern Naturalist, Volume 28, Special Issue 11, 2021

Freshwater Biodiversity of the Barrens and Upper Caney Fork Regions of Tennessee

Southeastern Naturalist, Volume 24, Special Issue 13, 2025

Biology and Conservation of Alligator Snapping Turtles (*Macrochelys*)

Southeastern Naturalist, Volume 22, Special Issue 12, 2023

Direct inquiries to keithg@eaglehill.us

Looking to publish a larger, more comprehensive treatise? Our **Monograph series** offers you a flexible option to showcase your work with all of the benefits of our regular issue publications.

**An Annotated
Checklist of the Bees
(Hymenoptera: Apoidea)
of Vermont with
Conservation Status and
Natural History Notes**

Northeastern Naturalist, Volume 32, Monograph 27, 2025

**Review of the Biology, Life
History, and Ecology of
Spot, *Leiostomus xanthurus*,
and a Comparison between
the Gulf of Mexico and the
Western North Atlantic
Populations**

Southeastern Naturalist, Volume 24, Monograph 12, 2025

If the nature and scope of your natural history research project warrants and would benefit from the individual attention and flexibility afforded by a stand-alone publication, then consider submission as a monograph.

Each monograph is published on its own with a full-color cover.

Monographs can be structured to best suit the presentation of your research project.

Monographs are included in the BioOne and JSTOR collections, journal indexes, and journal subscriptions for NENA and SENA.

Direct inquiries to keithg@eaglehill.us

Environmental Research For A Changing World

Environmental Studies Graduate Programs

Antioch University prepares scientists, educators, and advocates to address today's environmental challenges through interdisciplinary research, field experience, and a commitment to environmental and social justice.

FLEXIBLE PROGRAMS

MS and PhD in Environmental Studies available online, on campus, and in low residency formats.

SCHOLARSHIPS AVAILABLE - submit applications by May 1st
President's Merit Scholarship up to \$6,000
Tom Wessels Environmental Scholarship up to \$10,000

SATURDAY ROOM A: 8:05 AM

*Evaluating baseline values and spatial and temporal variation of 'forever chemicals' and in Massachusetts bald eagles (*Haliaeetus leucocephalus*)*

Jesse Caney, Michael Akresh, Chris Desorbo, Micah Miller, Mark Strynar and Natalie Karouna

SATURDAY ROOM F: 4:45 PM

Antioch's Outdoor classrooms: Creating opportunities for experiential learning.

Peter A. Palmiotto, Suzanne Green, Libby McCann (Antioch University, Keene, NH)
