

# EASTERN BIOLOGIST

---

## Board of Editors

Judy Awong-Taylor, School of Science and Technology,  
Georgia Gwinnett College, Lawrenceville, GA

Jennifer Eastwood, Queens University of Charlotte,  
Charlotte, NC

Matt Elrod-Erickson, Middle Tennessee State  
University, Murfreesboro, TN

Chris R. Gissendanner, College of Pharmacy,  
University of Louisiana, Monroe, LA

Fang Ju Lin, Coastal Carolina University, Conway, SC

Tim H. Lindblom, Math and Science Division, Lyon  
College, Batesville, AR ... **Editor**

Joerg-Henner Lotze, Eagle Hill Institute, Steuben,  
ME ... **Publisher**

Christi Magrath, Department of Biological and  
Environmental Sciences, Troy University, Troy, AL

Scott Merrell, Uniformed Services University of the  
Health Sciences, Bethesda, MD

Ashley B. Morris, Department of Biology, Middle  
Tennessee State University, Murfreesboro, TN

Maribel Pozo, Ecology, Evolution and Biodiversity  
Conservation Section, Katholieke Universiteit  
Leuven, Leuven, Belgium

Darla J. Wise, Biology Department, Concord  
University, Athens, WV

Dwayne A. Wise, Department of Biological Sciences,  
Mississippi State University, Mississippi State, MS

Ted Zerucha, Department of Biology, Appalachian State  
University, Boone, NC

♦ The *Eastern Biologist* is a peer-reviewed journal that publishes articles focusing on laboratory-based biological research conducted in eastern North America (ISSN 2165-6657 [online]).

♦ Subject areas - The journal welcomes manuscripts based on research focused on the biology of organisms as it relates to the structure, function, and development of their internal systems, and as it pertains to their use in medical and other applications that are not directly related to the ecology and conservation of species or their habitats. Subject areas include, but are not limited to, biochemistry, biotechnology, cell biology, genetics and genomics, immunology, microbiology, molecular biology, neurobiology, physiology, parasitology, and toxicology.

♦ It offers article-by-article online publication for prompt distribution to a global audience.

♦ It offers authors the option of publishing large files such as data tables, and audio and video clips as online supplemental files.

♦ Special issues - The *Eastern Biologist* welcomes proposals for special issues that are based on conference proceedings or on a series of invitational articles. Special issue editors can rely on the publisher's years of experiences in efficiently handling most details relating to the publication of special issues.

♦ Indexing - As is the case with the Institute's first 3 journals (*Northeastern Naturalist*, *Southeastern Naturalist*, and *Journal of the North Atlantic*), the *Eastern Biologist* is expected to be fully indexed in Elsevier, Thomson Reuters, Web of Science, Proquest, EBSCO, Google Scholar, and other databases.

♦ The journal staff is pleased to discuss ideas for manuscripts and to assist during all stages of manuscript preparation. The journal has a page charge to help defray a portion of the costs of publishing. Instructions for Authors are available online on the journal's website (<http://www.eaglehill.us/ebio>).

♦ It is co-published with the *Northeastern Naturalist*, *Southeastern Naturalist*, *Caribbean Naturalist*, *Urban Naturalist*, *Eastern Paleontologist*, and *Journal of the North Atlantic*.

♦ It is available online in full-text version on the journal's website (<http://www.eaglehill.us/ebio>). Arrangements for inclusion in other databases are being pursued.
