
PRAIRIE NATURALIST

Board of Editors

Jane E. Austin, Great Plains Natural Science Society, Iron River, WI • Journal Editor

Brian G. Blackwell, South Dakota Department of Game, Fish and Parks, Webster, SD

Joshua Campbell, US Department of Agriculture, Agricultural Research Service, Northern Plains Agricultural Research Laboratory, Sidney, MT

M. Colter Chitwood, Department of Natural Resource Ecology and Management, Oklahoma State University, Stillwater, OK

W. Sue Fairbanks, Department of Natural Resource Ecology and Management, Oklahoma State University, Stillwater, OK

Dan D. Fogell, Arts and Science Division, Southeast Community College, Lincoln, NE, Lincoln, NE

Scott Gangl, North Dakota Game and Fish Department, Bismarck, ND

Keith Geluso, Department of Biology, University of Nebraska, Kearney, NE

Heath M. Hagy, US Fish and Wildlife Service, Hatchie National Wildlife Refuge, Stanton, TN

Mary Harner, Department of Communication and Department of Biology, University of Nebraska, Kearney, NE

Lawrence D. Igl, US Geological Survey, Northern Prairie Wildlife Research Center, Jamestown, ND • Book Review Editor

Sean E. Jenkins, Department of Biological Sciences, Western Illinois University, Macomb, IL

Keith D. Koupal, Nebraska Game and Parks Commission, Kearney, NE

Jennifer Larson, US Forest Service, St Paul, MN

Joerg-Henner Lotze, Eagle Hill Institute, Steuben, ME • Publisher

Robert K. Murphy, Eagle Environmental, Inc., Santa Fe, NM

Clint Otto, US Geological Survey, Northern Prairie Wildlife Research Center, Jamestown, ND

Gregory J. Pec, Department of Biology, University of Nebraska, Kearney, NE

C.K. Pei, University of North Dakota Aerospace, Grand Forks, ND

Sam Rexing, Eagle Hill Institute, Steuben, ME • Production Editor

Michael L. Szymanski, Migratory Game Bird Management, North Dakota Game and Fish Department, Bismarck, ND

Mark P. Vrtiska, School of Natural Resources, University of Nebraska-Lincoln, Lincoln, NE

Don H. Wolfe, George Miksch Sutton Avian Research Center, Bartlesville, OK

♦ The *Prairie Naturalist* (ISSN 2766-8096) is an open-access peer-reviewed journal that publishes original articles and notes focused on natural history research in the North American Great Plains. It was founded in 1969 by the North Dakota Natural Science Society, later renamed as the Great Plains Natural Science Society, which published it as a print journal through 2020.

♦ Manuscript subject matter - The *Prairie Naturalist* welcomes manuscripts based on fieldwork, observations, and associated lab work that focus on terrestrial and freshwater fauna, flora, and habitats. Subject areas include, but are not limited to, community and landscape ecology, species-specific population dynamics, biology, conservation applications, behavior, biogeography, taxonomy, evolution, anatomy, and physiology. Strict lab, modeling, and simulation studies on natural history aspects of the region, without any field component, will also be considered for publication, as long as the research has direct and clear significance to field naturalists and the manuscript discusses these implications.

♦ It offers article-by-article online publication within volumes for prompt distribution to a global audience.

♦ It offers authors the option of publishing large files such as data tables, and audio and video clips as online supplemental files.

♦ Special issues - The *Prairie Naturalist* welcomes proposals for special issues that are based on conference proceedings or on a series of invitational articles or notes. Special issue editors can rely on the publisher's years of experiences in efficiently handling most details relating to the publication of special issues

♦ Indexing - The *Prairie Naturalist* is indexed in Web of Science (clarivate.com) and by way of author entries in Google Scholar and ResearchGate. Its indexing coverage will expand as interest in the journal grows. Indexing companies are well familiar with Institute's first 3 journals (*Northeastern Naturalist*, *Southeastern Naturalist*, and *Journal of the North Atlantic*) which are well indexed and included in full-text in BioOne.org and JSTOR.org and are indexed in Web of Science (clarivate.com) and EBSCO.com.

♦ The journal's editor and staff are pleased to discuss ideas for manuscripts and to assist during all stages of manuscript preparation. The journal has a page charge to help defray a portion of the costs of publishing manuscripts. Instructions for Authors are available (<http://www.eaglehill.us/prna>).

♦ It is co-published with the *Northeastern Naturalist*, *Southeastern Naturalist*, *Caribbean Naturalist*, *Urban Naturalist*, *Neotropical Naturalist*, and other journals.

♦ It is available online in full-text version on the journal's website (<http://www.eaglehill.us/prna>). Arrangements for inclusion in other databases are pending.
